

Content Requirements

This guide is intended to help the REI vendor community provide quality product content for use on REI.com. Providing sufficient and coordinated content helps REI customers make smarter buying decisions and drives customer satisfaction. Images that provide customers with alternative views and copy that completely and accurately describes the product are both shown to increase conversion for your products! Here you will find file requirements, step-by-step instructions for how to upload different types of content and guidelines for product information.

Content Delivery Guidelines

How do I deliver my content to REI?

- All product photos, videos and copy/specifications must be submitted through our Vendor Product Portal.
 - <https://collaboration.rei.com/>
 - Username: vendor
 - Password: vendor999

When should I supply this content?

- As soon as possible! When you receive your REI article numbers after the Article Create process is complete, you can begin uploading content.
- REI typically sends an email request for products three months prior to their expected delivery. However, if a product is included in a marketing event, you may receive requests even earlier.
 - These early due dates for priority products allow REI time to produce marketing materials, if required.

Whom should I contact?

- CAT@rei.com for image/video questions
- PI@rei.com for PI Template (specs and marketing copy) or size chart questions
- Vendor@rei.com (or Merch/Buyer involved in Article Create Process) for questions and issues related to product or inventory (e.g., product name changes, incorrect SKUs/VPNs/casemarks).

Vendors must provide robust and accurate product information for the product copy team at REI to craft compelling product pages. The product copy team brings copy from more than 1,000 vendors into a common voice and works to ensure consistency of presentation across each category. **The wording in the copy you submit may be modified** to meet our extensive style guide, site requirements and customer needs, but the facts and intent will be preserved.

Image Formatting & Requirements

Following these image file requirements will help our team process your images quickly and allow your item to be accurately represented to customers as soon as it is available to sell.

- All images **must** have the 10-digit SKU at the **front of the filename**. Find your [REI 10-digit SKU](#) here.
 - Naming convention example: “REI10DigitSKU_OriginalFilename”
- Only **one set of images** is needed **per colorway**. It is not necessary to submit repeat images for every size within a style.
- **Acceptable file formats**
 - JPG, TIF, PNG, PSD
- **Resolution requirement** is measured on the **longest edge** of the image.
 - **Preference – 1,500 to 3,500 pixels**
 - **Minimum – 900 pixels**
 - **Please keep files under 20 MB.** Large file sizes will bog down our image delivery server and delay processing of your images.
- **Color space**
 - Embed color profile – sRGB preferred
- **ALL product imagery** should be submitted on a white or transparent background.
- **On Model Imagery** can be submitted with a white or grey background **only**.

Video Formatting and Content

Videos should:

- Be educational in nature.
- Present how-to-use or product-tour information.
- Provide straightforward feature-and-benefit statements.
- Clearly show the difference between similar products
- Be about an individual product or a small group of closely related products.
- Be provided to REI for unlimited use in relation to the promotion of the product(s).

Videos should not:

- Be of a generic nature in relation to products.
- Have an overtly marketing feel.
- Include specific prices.
- Include products REI does not carry.

Video file requirements:

- Resolution: 1920x1080 OR 1280x720
- Compression: H.264 Recommended [MPEG-4, VP6, or MJPEG Accepted]
- **Please no ProRes!**
- Frame Rate: 24, 25, or 30 frames per second
- Video should be de-interlaced with square pixels.
- AUDIO: AAC Recommended Stereo or Stereo + 5.1 96 khz or 48 khz Constant Bit Rate

To submit your videos:

1. Go to our Vendor Product Portal
2. Select the "Add a Product Video" link and follow the prompts.

PLEASE NOTE: We cannot accept YouTube or Vimeo videos, as our site does not support video links; we need you to upload the actual video file into the Vendor Product Portal.
